# **La norma ISO 27001 e la sua contestualizzazione nel panorama normativo nazionale ed internazionale**

**Abstract:** Il seminario presenterà una panoramica della normativa di riferimento nazionale ed internazionale dove, utilizzando il CSFCTool, sarà mostrata la nascita e l'evoluzione del Framework Nazionale per la Cybersecurity e la Data Protection, e le sue relazioni con le normative NIST ed ISO. Il seminario si

focalizzerà poi sugli standard ISO, in particolare la famiglia ISO 27000 e lo ISO 27001, inquadrando la sua struttura e i requisiti previsti per l'ottenimento della certificazione, con qualche suggerimento pratico per la sua implementazione.

**Lecturer short bio:** *Giuseppina Murino graduated from the University of Genoa, Italy with a "Laurea Magistrale" (MSc equivalent) in Management Engineering in December 2013. She is now a Research Engineer at the Department of Informatics, Bioengineering, Robotics and System Engineering, also pursuing PhD studies in the field of modeling and simulation. She is currently the technical leader of a project aimed at studying the resilience of cyber-physical systems controlling elements of national critical infrastructures.*
