What is CaPriC?

A PhD school (4 ECTS) exploring the fusion of real-time systems, virtualization, and cloud-edge platforms to build next-generation cyber-physical systems. Ideal for PhD students, early-stage researchers, industry practitioners, and master's degree students who are finishing their theses and intend to apply for a PhD, seeking deep academic insight and industrial know-how.

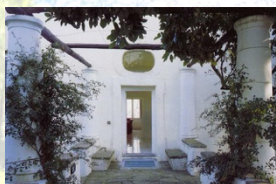

Why Attend?

- Master cutting-edge technologies driving industry and research
- Work on real-world applications
- Connect with leading academics, innovators, and peers
- Chance to swim in one of the most beautiful seas in the world 😊
